

Gloves • Armguards • Sleeves • Liners

Flexible protection, cut and puncture resistance where you need it.

HexArmor® made with SuperFabric® is the first and only line of hand and arm protection to provide cut, puncture, and abrasion resistance in a single product without sacrificing comfort, dexterity, grip, or breathability. It offers significantly higher cut and abrasion resistance than Kevlar® or Spectra®, but unlike those fabrics it also protects you from needlesticks and other sharps hazards, particularly in high-risk environments. And it is 100% washable without compromising product integrity or dexterity.

The technology works by “trapping and blocking” the needle. Most needles strike a guard plate directly, resulting in the immediate arrest of the needle. If the needle hits a gap, it is “trapped” and then blocked by the layer below. The gaps provide the flexibility required to allow the material to bend and flex.

HexArmor products come in a wide range of designs and applications. They can be made with an extra layer for superior needlestick protection, with specialized gripping and anti-abrasion materials for handling slippery jobs, and as liners for wearing under an overglove in the dirtiest environments. Law-enforcement, recycling and refuse, medical and laundry, animal handling, manufacturing, fabrication, and materials handling are just a few of the industries where HexArmor truly shines.

Norwest Safety is pleased to offer the superior performance and protection of HexArmor products.

Hercules™ R6E (#400R6E)

NWS 69179

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- SHARPS RESISTANT
- ABRASION RESISTANT

When it comes to handling high-risk situations, this gauntlet is a true hero. Hercules offers the highest levels of needlestick and cut protection for your entire hand and forearm. It has a special gripping substance that enhances abrasion resistance and gives great grip for dry materials. Pre-curved shape provides comfort and dexterity. 100% HexArmor protection on the entire glove. Machine washable. Excellent for a wide variety of high-risk applications. Available in size L.

PointGuard™ X (#6044)

NWS 69160

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- SHARPS RESISTANT
- ABRASION RESISTANT

PointGuard™ X is the ultimate in needlestick prevention. Designed for the recycling industry, it's also great for law-enforcement and other applications requiring high dexterity and long-term comfort. Provides the highest levels of cut and needlestick protection available. Stretch-cotton outer shell, designed to be worn with a disposable outer glove to provide extra durability. Protects palm, fingers, thumb-crotch, and outside of hand. Available in sizes S-XL.

Hercules™ NSR (#3041)

NWS 69177

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- SHARPS RESISTANT
- ABRASION RESISTANT

Hercules™ NSR gloves provide significant puncture protection to both the palm and the back of the hands. Gloves work great in areas where full protection is necessary. Precurved design and glove liner provide added comfort. Hercules™ NSR provides 2 layers of HexArmor protection on the palm, fingers, and thumb-crotch. Machine washable. Available in sizes M-XL.

2020 Glove Liner (#2020)

NWS 69163

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The 2020 Glove Liner offers high cut and puncture protection, while still allowing for comfort and dexterity. It has over 4000 grams of cut resistance, well over ISEA Level 5. Tight-fitting, the 2020 liner is perfect for applications that require high dexterity. Machine washable. Available in sizes S-L.

HiDex™ NSR (#4041)

NWS 69158

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- SHARPS RESISTANT
- ABRASION RESISTANT

HiDex™ NSR premium mechanic's style glove with an additional layer of HexArmor fabric has the highest level of needlestick protection available. The comfort and superior protection make it great for maintenance, corrections, law-enforcement, refuse collection, medical, and laundry industries. Three layers of protection on the palm, fingers, and thumb-forefinger crotch. Washable and easily sanitized. A great glove! Available in sizes M-XXL.

HiDex™ Ultimate L5 (#4018)

NWS 69155

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

HiDex™ Ultimate L5 is a fantastic glove for most manufacturing, maintenance, fabricating, and other industrial applications. Faux leather and Hex Armor protected fingers, palm, thumb-forefinger crotch, and knuckle protector. The faux leather provides a good dry or wet material handling capability. A true mechanic's glove with added cut and puncture protection, great dexterity, and it's machine washable. Available in sizes S-XL.

HiDex™ CPR FX (#4035)

NWS 69152

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The HiDex™ CPR FX gloves combine the comfort and dexterity of a mechanic's style glove with superior cut protection. Fantastic glove for manufacturing, maintenance and fabrication. Silicon dot gripping surface is optimized to work with wood, glass, and dry metals. These gloves offer the highest level of cut protection on the market, covering the palm, fingers, and thumb-forefinger crotch. Great dexterity, washable, and durable. Available in sizes S-XL.

HiDex™ MD FX (#4015)

NWS 69150

- LEVEL 4 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The HiDex™ MD FX offers high puncture and cut resistance with the fit and feel of a mechanic's style glove. Great for most manufacturing, maintenance and fabricating occupations. Silicon dot covered and Hex Armor protected fingers, palm, and thumb-forefinger crotch. Great grip, good dexterity, washable, and economical. Available in sizes S-XL.

SteelLeather™ II Oil (#LD036L)

NWS 69170

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The SteelLeather™ II Oil combines the comfort and dexterity of a leather driver's glove with added cut and puncture resistance, to lengthen the life of the glove and provide greater safety. Hex armor protected fingers, palm, thumb-forefinger crotch, and knuckle protector. A great value: these gloves can outlast regular driver's gloves 20 to 1. Grip optimized for oily metals, wet wood, and slick surfaces. Available in sizes M-XL.

9" Arm Guard 9S (#AG10009S)

NWS 59022

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The HexArmor® 9" Arm Guard 9S is made of high-performance cut and puncture resistant fabric. The arm guard will help protect your forearm from metal, knives, and even punctures from objects like sheet metal. Spandex wrist insert with thumb hole means it won't slide around or fall down like knit sleeves, and lasts 10-15 times longer! Can easily be worn under most gloves. Ambidextrous, sold individually, available in sizes M-XL.

HexLeather™ Oil (#LDT56L)

NWS 69174

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The HexLeather™ Oil leather work glove with HexArmor protection on the palm, fingers, and back of the forefinger. Leather knuckle strap and safety cuff. The oil grip has been optimized to work with wet wood, oily metals, and other slick surfaces. A long-lasting glove at an economical price. Available in sizes L, XXL.

19" Sleeve (#AS019S)

NWS 59025

- LEVEL 5 CUT RESISTANT
- PUNCTURE RESISTANT
- ABRASION RESISTANT

The HexArmor® 19" Protective Sleeve is made from the same high-performance fabric as the AG10009S. The sleeve will help protect your arm all the way up to the shoulder from metal, knives, and other sources of cuts and punctures. Can easily be worn with most gloves. Ambidextrous, sold individually, available in sizes M-XL.
