

# In Case of Emergency...

© Norwest Safety

## It's In The Bag

Being prepared for emergencies is all about planning ahead.

From a simple cut or scrape to a major disaster, thinking ahead helps everyone respond quickly and safely to the need at hand.

For individuals, families, companies, or communities, having emergency supplies ready is part of everyday life.

**First Aid Kits - Bloodborne Pathogen Kits  
First Response Kits - Spill Kits - Pandemic Kits  
Hygiene Kits - Disaster Preparedness Kits  
Also - Portable Eyewash Stations  
Portable Decontamination Showers**

## Pelican Cases & Lights

### Pelican EMS Case

EMS Cases feature a specially engineered medical supply organization system which includes a lid organizer with clear pockets and a fully customizable, hook-and-loop, padded divider set. The system is perfect for quick and easy inventory and storage of pre-filled syringes, solutions, vials, and ampoules along with all other accessories carried by EMS techs everywhere.

Pelican 1500EMS

The EMS Cases feature a distinctive, trademarked "Dual Band" design with a cell-core polymer construction that helps them protect sensitive equipment from some of the harshest conditions on Earth. Available in 1500, 1500 or 1600 Protector Case sizes, the largest case in the series boasts more than 2,700 cubic inches of possible storage space.

### Pelican 7060

Coming Soon!

The NEW Pelican 7060 Rechargeable LED tactical/patrol flashlight as developed for the LAPD is an amazing flashlight. Dual tail and body switches along with non-slip body allow for multiple grip positions. Super bright LEDs with Rechargeable Lithium-Ion batteries have 90 minute burn time at maximum brightness. The focused beam penetrates darkness up to 120 yards while a secondary 12' pool illuminates the periphery. Plus the light only weighs 10.4 ounces with batteries included. Available in June 2007.

## Respiratory Protection Options

### North ER2000CRBN Escape Hood

This Escape Respirator provides 30 minutes of protection from non-ILDH atmospheres containing Chemical, Biological, Radiological, and Nuclear (CBRN) as well as Toxic Industrial Chemical respiratory hazards. The ER2000 is quick and easy to don, simply pull hood over head and adjust outer harness straps on front of hood for good respirator fit. The ER2000 is universally sized, comfortable to wear, and has a large polyurethane lens for excellent visibility. NIOSH/CBRN approval #TC-14G-0281 Meets CAP 2, 30 minute rating.

### Dalloz Flat Fold N95 Disp. Respirator

This Flat Fold Respirator with Exhalation valve is the perfect mask for quick response. Each mask is individually wrapped, folds flat to fit in pockets, comes in three sizes to fit wearer better -- and has exhalation valve for easier breathing and keeping those safety glasses fog-free.

### Aearo Pleats Plus N95

For a great value pandemic kit mask, try **Aearo Pleats Plus N95 flat fold** mask. Available individually wrapped in bulk, folds flat for easy storage, size Med/Lg fits most people.

## Disaster Preparedness PPE Kits

Arrive on scene with one of **North Safety's Basic Incident Response PPE Kits**. All the personal protective wear you need assembled in one carry bag.

Kits include barricade tape, hard hat, goggles, disposable respirators, traffic vest, disposable gloves, and overboots for general purposes. Also includes nitrile, butyl, and Silvershield chemical gloves, a CBRN Chemical Gas Mask or ER2000CRBN Escape respirator, first aid kit with eyewash, thermal blanket, and contaminated clothing bag. A multi-situational tool that every incident responder needs.

Norwest Safety can also help you customize your kit by adding Tyvek® or other chemical suits, blood borne pathogen kits, sharps resistant gloves, antimicrobial sanitizers, flashlights, and many other items to help you be prepared.

## Gloves

### HexArmor 9003 "Level Six Series"-

It looks like a palm-coated work glove. It feels like a palm-coated work glove. But there is a BIG difference. Very high cut resistance - ISEA Level 5 on palm and fingers - plus puncture protection on the palm against wires, needles, metal, and glass. High comfort and dexterity, polyurethane dipped coating for superb grip, and -- it's machine washable.

### HexArmor 7080 "Sharps Master"-

Ideal for any job where sharps present a risk. The 7080 combines needlestick and level 5 cut protection in the palm and fingers with a nitrile finish coat for superior grip and liquid resistance.

Many other styles are available as well as arm guards, aprons, chaps, and a blanket!

## Best N-Dex NightHawk

NightHawk powder free, accelerant free black disposable 4 mil nitrile gloves are the least allergenic disposable gloves available. The NightHawk has textured fingertips for superior grip with the chemical and snag protection of nitrile. Slim box for easy storage. S-XL.

## QRP Hi-Risk Latex

Hi-Risk 14 mil blue disposable latex with 12" no-roll cuff and wet/dry grip delivers extra protection, comfort and dexterity. XS-XXL.

## Eye Protection

### Uvex Stealth Goggle

Designed for chemical splash and impact resistance with one amazing bonus -- it's actually comfortable. Ventilation system and anti-fog coating minimize fogging, quick adjust headband eases donning. Rx insert available.

## FogTech

FogTech anti-fog coating is the best we've found on the market today. FogTech is specifically formulated for today's polycarbonate safety glasses, goggles and faceshields, and offers crystal clear fog-free vision. Tested on the oil fields of Alaska, this product has an operating temperature range of -35° F to 135° F, easy no-rub application and quick 5 second drying time. Available in a 1oz bottle or towelettes.

## Body Protection

### Lakeland Industries Protective Clothing

Lakeland's line fully covers you -- from Level A fully encapsulated suits, to Level B suits, to NFPA approved suits and garments, to incidental chemical splash suits, to dust and water barrier suits.

## ChemTape

Kappler's patented chemical-resistant tape designed specifically for taping protective apparel interfaces including gloves, boots, respirators, zip-pers and storm flaps.

## Emergency Lighting

Coming Soon!

### Pelican 9450 Remote Area Lighting System

The 9450 RALS combines a tough Pelican 1510 Carry On Case with 16 x 1 watt Luxeon LEDs mounted in an aluminum heat sink. All items are stored in the case and assemble in minutes. The aluminum poll extends to a height of 83" to provide 640 lumens of light for any area. The rechargeable battery has 9 hours of life at maximum output tailing off to low light level at hour 14. The diffuser (included) can be mounted to change the beam from a focused spot to a diffused beam.

## Cyalume Light Sticks

Cyalume safety lightsticks are the worry-free, maintenance-free alternative to flares and emergency lighting. Non-toxic, waterproof, windproof lightsticks provide 360 degrees of illumination; are visible up to one mile and produce no heat, flame or sparks. 10" Yellow 2-hour lightsticks with stand are the perfect alternative to traditional road flares.
